Library Info

Library has a collection of 6,668 books (as on 13.10.2023), and for proper organization of the library material, library has Vriddhi software. In addition, the college has purchased "KOHA" Library Software as well which is a cloud hosting on Microsoft azure.

Software is upgraded from time to time through the regular annual maintenance contract. One terminal is reserved for students to search information of availability and issue of Books. Web based Library Software provides OPAC (Online Public Access Catalogue), E-mail & SMS alert. The software works as a single window where the record of the users along with circulation status, fine status, contacts details, reading & circulation history is maintained.

Various types of reports can be generated with the use of above mentioned software like usage report, issue report etc. Books database is created along with users' database.

Issue and return process is fully automated and manual cards are kept as supporting documents for students and faculty.

The Library has active institutional membership to NLIST-INFLIBNET consortia. NLIST provides access to 6000 e-Journals and 135000e-Books. Union catalogue of books.
