## **BEST PRACTICES**

### **1. Capacity Building Leading towards Women Empowerment**

Through women are most important part of nation, they treated as a miscellaneous, still after the 70 years of the independence. Women in rural area are from weaker sections. To empower the women in rural area higher educational institutes plays a pivotal role. Home Science is a field which has basic core courses for developing self, family leading to community and nation. It creates knowledge creation and skill building through its education. Therefore the vocational education and entrepreneurial skill development in women is a need of time. The institute initiates the activities through awareness, motivation and development in the students.

### **2. Community based learning through extension and outreach activities**

One of the notable best practices of the women's college of home science has been community based learning through extension and outreach activities, as a vision of institute it reflects. The philosophy of Home Science education emphasizes on community based extension and research. The institution firmly believes in application of knowledge received in classroom, setting for improving socio economic standard in living of community, through extension and community based outreach activities.
